SKILLS

Programming Languages: Python, C, Java, JavaScript, SQL, NoSQL
Web Development: Flask, Django, FastAPI, Node.js, React.js, Next.js, PHP, BeautifulSoup
Cloud & DevOps: Azure, GCP, Docker, Linux, Bash
Machine Learning & AI: Scikit-Learn, TensorFlow, Keras, PyTorch, Pandas, NumPy
Databases: SQL, PostGIS, MongoDB, Supabase, ClickHouse, Arctic DB
Data Visualization: Matplotlib, Seaborn, Power BI

WORK EXPERIENCE

Pillai College of Engineering May 2025 - Present

Full Stack GenAI Developer Intern

- Collaborating with Palghar Police to build a secure and scalable Next.js-based full stack application.
- Leveraged LangChain and LangGraph to build generative AI workflows for smart case response.
- Deployed a WhatsApp-based service to automate and streamline field reporting and inquiry processes.

Maxspike Capital Management LLP Jan 2025 - Mar 2025

Quant Python Developer Intern

- Developed a low-latency algorithmic trading application for real-time order execution in the Indian Stock Market.
- Conducted backtesting and performance analysis to enhance trading strategies.
- Built scalable ETL pipelines that processed 10M+ rows of historical market data, improving data availability by 70%.
- Reduced trade execution latency by 40% using advanced concurrency techniques (multiprocessing, threading).
- Optimized storage and retrieval time by 60% using ClickHouse and Arctic DB to manage 1TB+ of financial data.

Pillai College of Engineering Jan 2024 - April 2025

Full Stack Developer Intern

- Worked with Maharashtra Police to develop a full stack web application.
- Built interactive dashboards using Flask, SQLAlchemy, Material Dashboard, jQuery, Bootstrap, and Jinja templates.

EDUCATION

Pillai College of Engineering New Panvel May 2022 - Jun 2026

B.Tech. in Computer Engineering

CGPA: 8.86/10

Relevant Coursework: Object Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning, Data Mining, Advanced Data Structures and Algorithms, Artificial Intelligence and Cognitive Computing, Natural Language Processing

D.A.V. Public School Nerul May 2020 - Apr 2022

Senior Secondary Education, CBSE

Percentage: 90.2

D.A.V. Public School Nerul May 2018 - Apr 2020

Secondary Education, CBSE

Percentage: 94.8

PROJECT WORK

- **Music Composer using LSTM:** Generate music compositions using a Long Short-Term Memory (LSTM) neural network with over 93% accuracy. The model is trained on sequences of musical notes, learning the patterns and relationships between them. Used TensorFlow, Keras, Flask for web app.
- **Automated Grading System:** A high-accuracy AI-powered NLP-based solution for evaluating handwritten exam papers with over 98% accuracy using BERT. Trained and evaluated on 25+ NLP models for optimal performance. Integrated computer vision techniques to process scanned handwritten answer sheets and generate evaluations.

ACHIEVEMENTS AND CERTIFICATIONS

- **Winner CodeNovact Hackathon:** Pan India Hackathon organized by Inovact Private Limited.
- **Runner Up Mathematics Quiz:** Organized by Pillai College of Engineering.
- **Certification:** Oracle Cloud Infrastructure 2025 Foundations Associate
- **Certification:** Oracle AI Vector Search Certified Professional
